Being a Manual Quality Assurance Engineer for one year, I quickly got into the product and enhanced my abilities in VoIP and network, regression testing, teamwork, applied a lot of theoretical knowledge in practice, worked with the database, used existing tools and techniques to execute test cases. I also keep studying new things, learning the basics of Python and automation for future development.

SKILLS

Jira | Oracle SQL | mRemoteNG | GIT |
Postman | DevTools | Wireshark | WinSCP
